SUMMARY

As a budding software engineer, I am driven by a profound curiosity for technology and a desire to craft innovative solutions. I am a final year student [B.tech Computer Science] and I'm an Entrepreneur (social media), I've honed my skills in communication, teamwork, adaptability, leadership, and time management, among others. I see an entry-level position in the industry where I can apply my knowledge and experience to the ultimate benefit of the operations of the organisation I work for.
